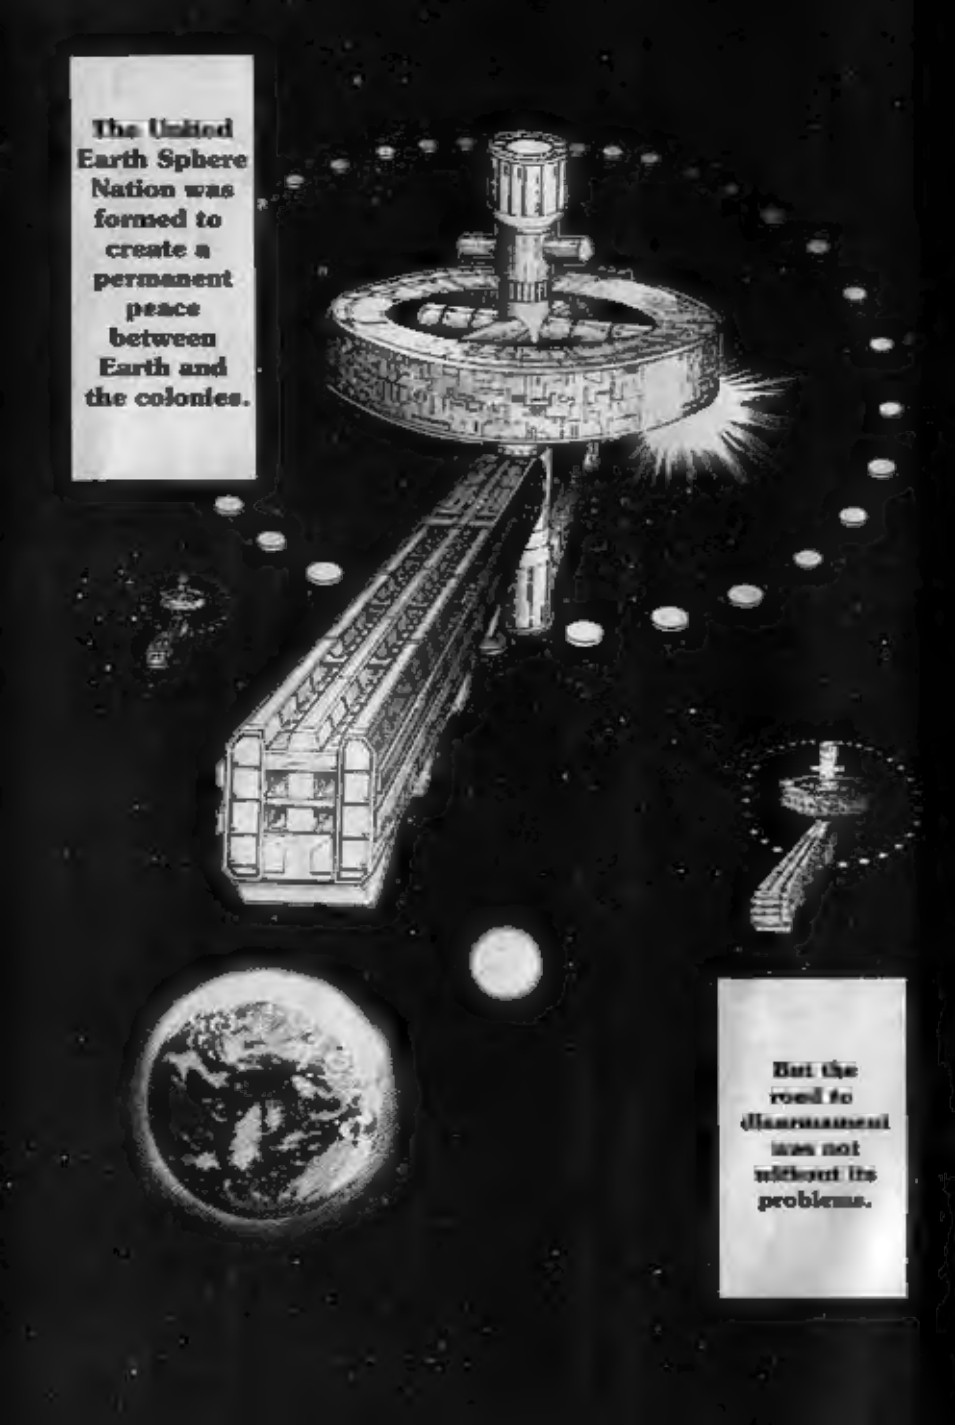
Conclusion of the "Eve Wars"
The Libra's on a collision course with Earth! We're too late!
Not if I can help it...
The destruction ends here!
BLAST

VRRAAAMMM
Heero, you did it! You stopped Libra!

Earth is saved!
Heero...
Mission accomplished.
And so the Gundam boys, trained to be soldiers of war, became agents of pacifism.
And for the first time since the colonies were formed, there was peace on Earth.



The United Earth Sphere Nation was formed to create a permanent peace between Earth and the colonies.
But the road to disarmament was not without its problems.

Although humans renounced large weapons after the war...
...there were some who refused to lay down their arms.

As you can see, we've refitted our assembly lines...
... for production of agricultural vehicles.
No Mobile Suits. Not even a tank, your majesty...
I mean, Vice-Minister Durlian.
What about research facilities?
I heard that your company used to develop advanced MS?

We provided the military with new MS in the past...
...but since the armistice, we've shut down all the facilities.
Let me take a look.
How can we show you what we don't have?
Then, I'd like to meet with the former MS researchers and engineers.
The development team is this way!
You're being too mild, Relena!

Let's check all the facilities.
It's too early for that.
But ...
We can't force it. We must make them understand...
...that there is no need for weapons.
!!

What's that?!
Sounds like something exploded underground.

OH, NO!
It's the underground factory ...

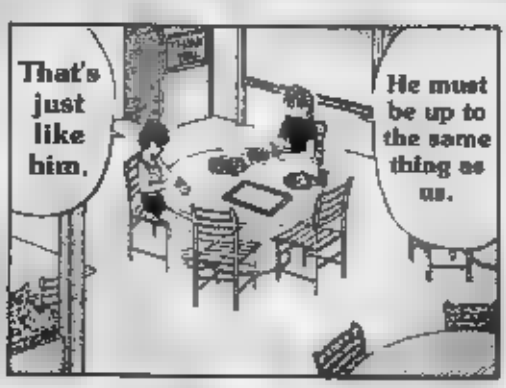
What the...!
Our production facility...
Inform the U.E.S.N. O-Star is under immediate suspension!
Yes, madam!
You did this, eh?!
No. We are trying to stop violence, and would never commit it ourselves
Then, who's responsible?!
Some people must feel more strongly about the need for disarmament.

I wonder...
Heero, did you know Relena was at the factory?
.....
I guess you did.
I tried not to get in her way.
They won't be making Mobile Suits there again!
Do you keep in touch?
With who?
Relena, of course.
No.

She's gonna forget about you, man.
Why'd you come down from space?
Oh, you know.
Got into a fight?
No! What makes you say that?!
Fine.
Trowa and Quatre are doing okay?
What?!
Oh, those guys...
Hm?
Who'd you think I was talking about?
Uh... never mind.
VROOM

Space doesn't need three of us.
I left Trowa and Quatre behind.

Wufei's not with you?
I thought he'd be with you!



That's just like him.
He must be up to the same thing as us.

So, what's the next target?
It's easy to check the companies that made weapons before.
We have to look for the new-comers.

They just don't get it... Holding onto guns.
The war affected people, but the Earth and the colonies...
...still don't trust each other.

Did you hear the rumor?

About Vulkanus?

Yup. Any idea who started it?

An unmanned OZ factory called Vulkanus exists in perfect shape somewhere in space.

It might just be a rumor, but Quatre s looking into it. But...
What?
Some colonists are already organizing against the U.E.S.N.
Oh, them. They're annoying.
Who are they? Ex-OZ?
No. Pacifists. The guys who want "Perfect Peace."
What's wrong with that?
Their definition of peace is... Oh, forget it
Let's find a motel.

You're not taking Sandrock?
Why? It's just a rumor.
I'll prove that there's no Vulkanus.
Don't forget to watch your back.
Sure thing, Trowa.

Give up all weapons!
We don't need Gundam!
We'll do whatever it takes to prevent war from starting again!
LOSE
Large ships could be used as battle-ships!
Hey, stop it!

OPERATIONAL MS ARE DANGEROUS!
BACK OFF!
Eliminate danger for a perfect peace!
It's those Perfect Peace People.
They're taking it too far.
They are supporting peace and dis-armament, though...
There'll be trouble if they push their ideas on Earth.
I'll check 'em out.
Okay.
Bye.

Take care, Quatre.
Take it easy.
I'll stay here and work.
Okay. I'll check out Europe.

That's Rome-feller country.
Give me a buzz if some-thing's up.
Don't worry. I've been there before.
Cool. Bye.
It's been good talking to you.

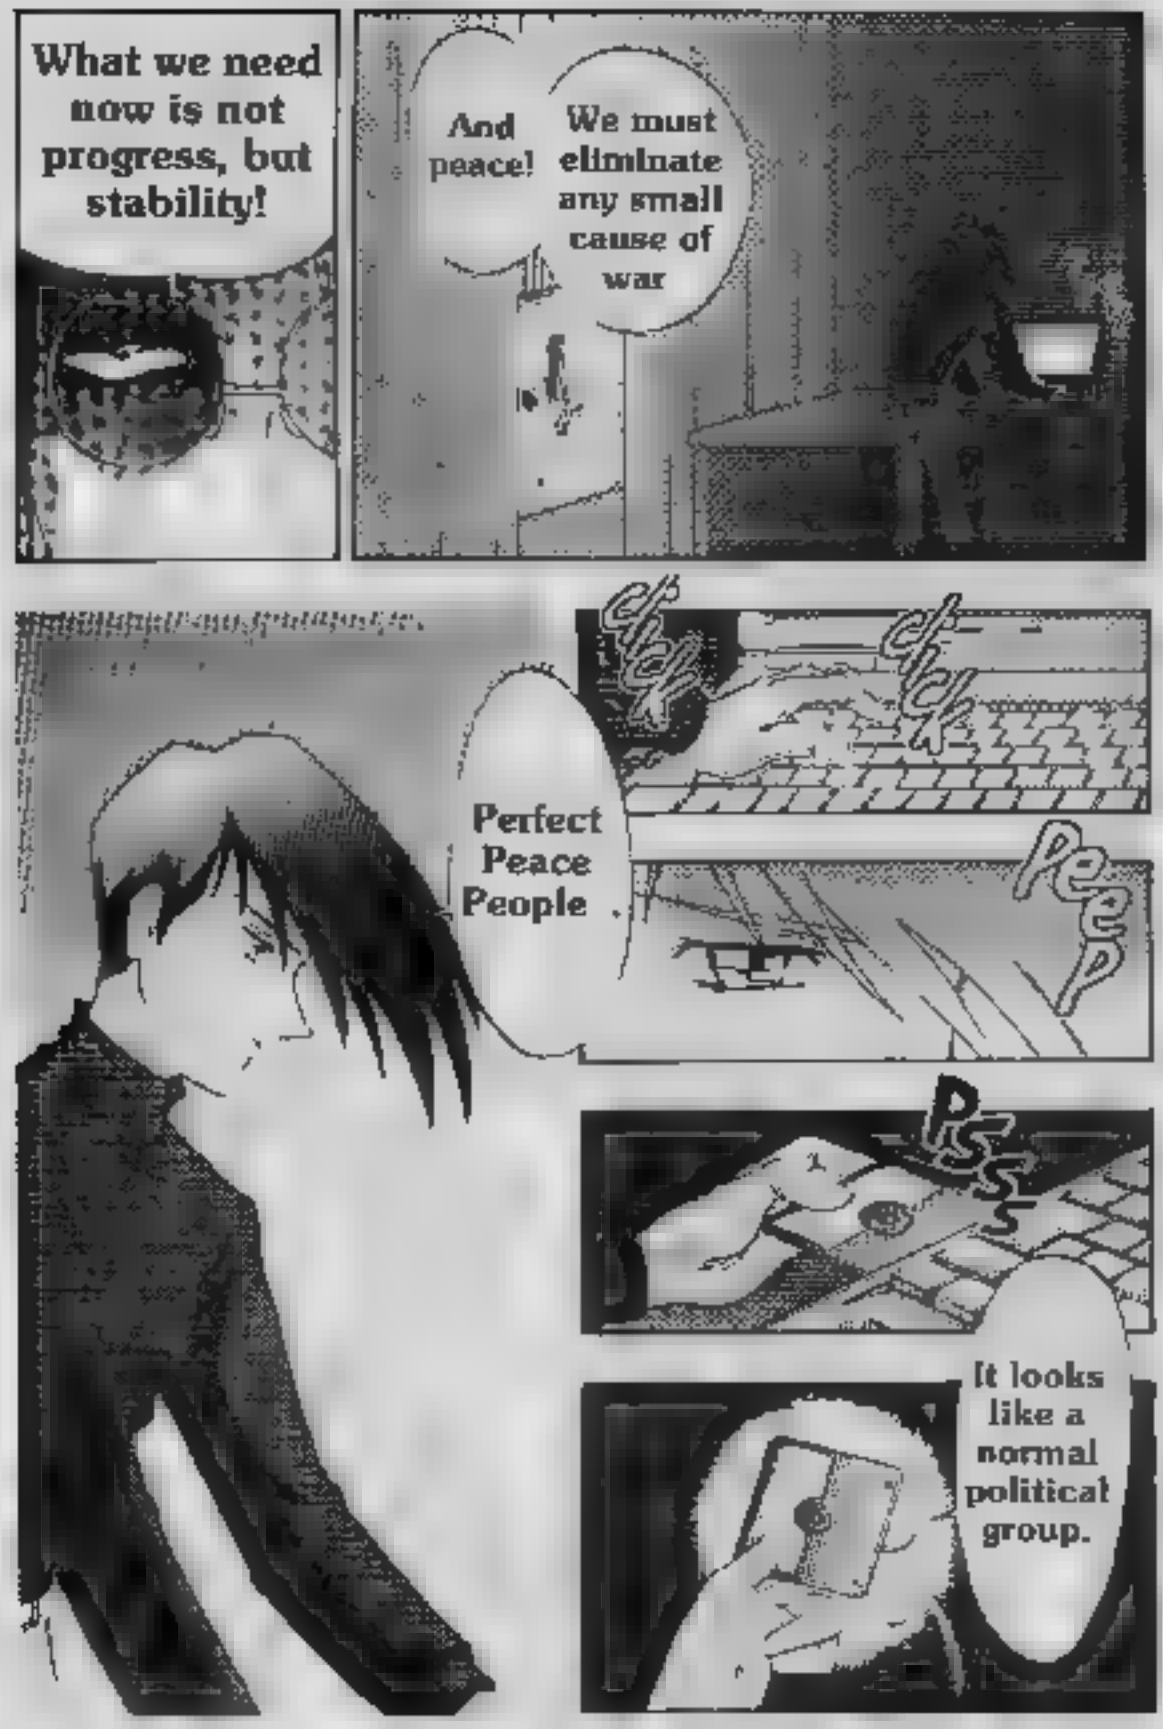
Today's guest is the leader of Perfect Peace People, Victor Gaintz!

Dis-armament after the war was a truly momentous occasion in the quest for peace..
but we haven t gone far enough. Getting rid of weapons is just the first step.
We must also prevent the ability to rebuild the armies of the past.
Truly inspiring words, Mr Gantz. But do you really think total disarmament is possible? Who will protect the people if a new enemy appears?



What we need now is not progress, but stability!
And peace!
We must eliminate any small cause of war

It's not enough to just stop production of new weapons and give up arms
The thing that worries me most is.

Gundam.

What happened to those deadliest weapons of war?

Gundam?
That's right! Why is no one making this an issue?! What's the government's policy on them?!
Uh.. I'm sorry, but your time's up!
Thank you, Mr Gaintz!

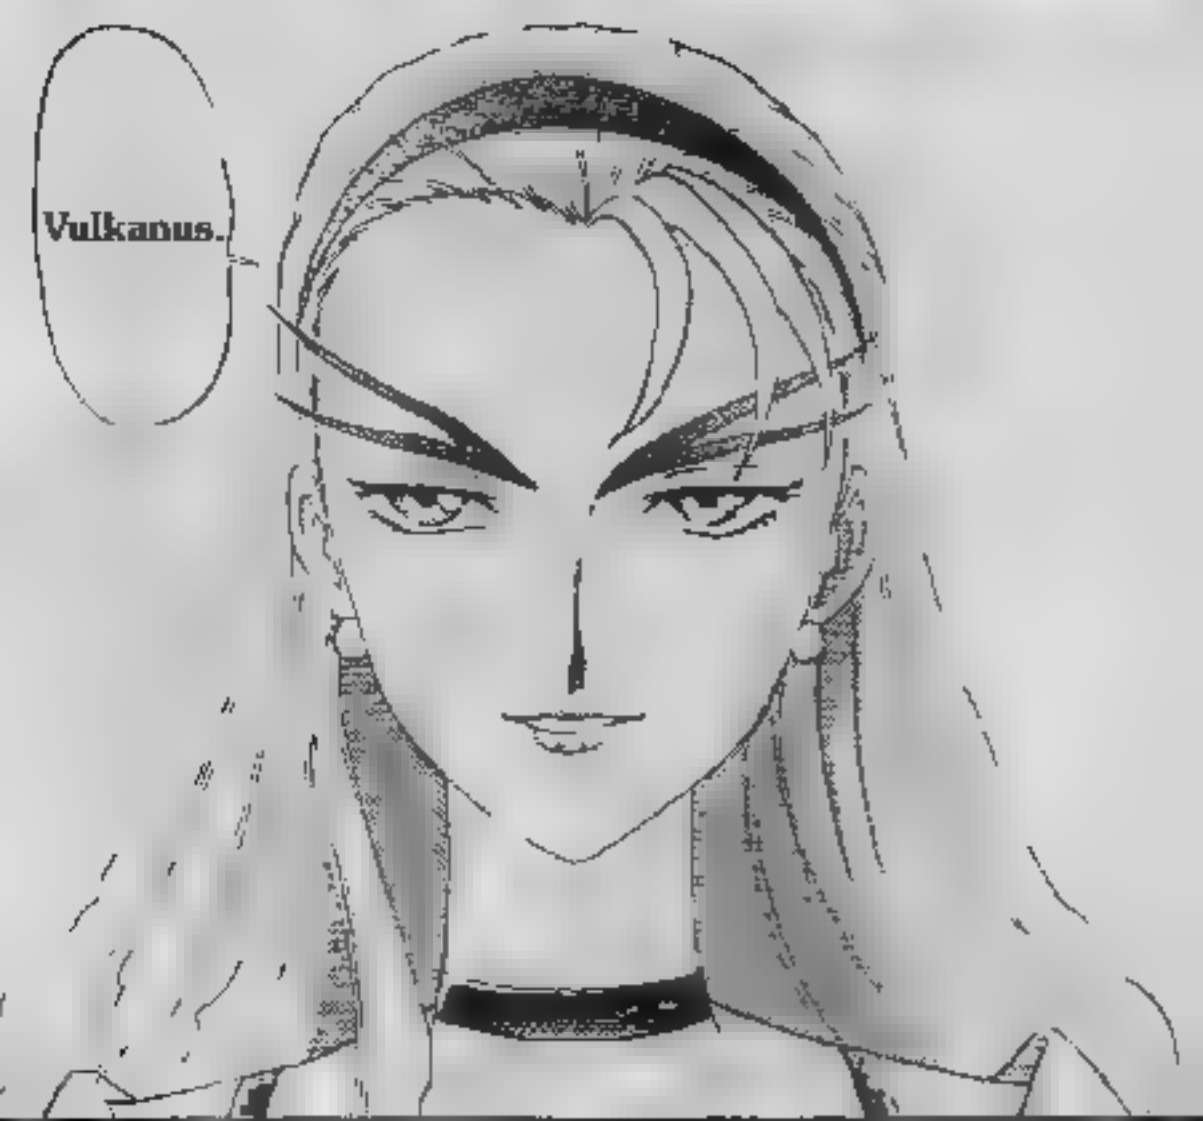
Does it hurt to remember the past?
No.

My flower is for the person who fought for the future
I need your help.
That's rather unusual for you.
Do you know any Rockefeller affiliates who support military rule?
Even if there were any, I wouldn't know anything about it.
But..
But?

The remaining OZ supporters are after my grandfather's inheritance.

What are you talking about?



Vulkanus.

You're a Gundam pilot?!
Quatre Raberba Winner, Gundam Sandrock's pilot..
What'd you come here for?
To look for ...Vulkanus.
!!
What do we do?
Contact the Chair-man!

It started raining Heh heh.
I'll have a guest room ready.
Stay he■ tonight.
Don't worry about it.
Tell me more about Vulkanus.
You haven't changed, Heero.

I heard Tubarov making a proposal to my grandfather about an MD plant
- but I don't know what happened to it.
.....
What about the remaining OZ forces?

Just before the armistice, a small fleet was sent to an asteroid field to mine resources.
They were called back to battle White Fang, but didn't make it in time
The fleet was dissolved after the war, but there was a group which didn't comply
hissing

I didn't know about them until
they contacted me recently.
What?!
Captain Broden's the leader.
He asked me about Vulkanus
What did you tell him?
I can't tell what I don't know.
He said, he'd find it on his own.
Did you contact the U.F.S.N about this?

Why should I? There's no proof that Vulkanus even exists.
I'd like to find out if General Khushrenada's and Zechs Merquise's plan to bring peace through war can actually work.
BADOOM

What if ■ did?

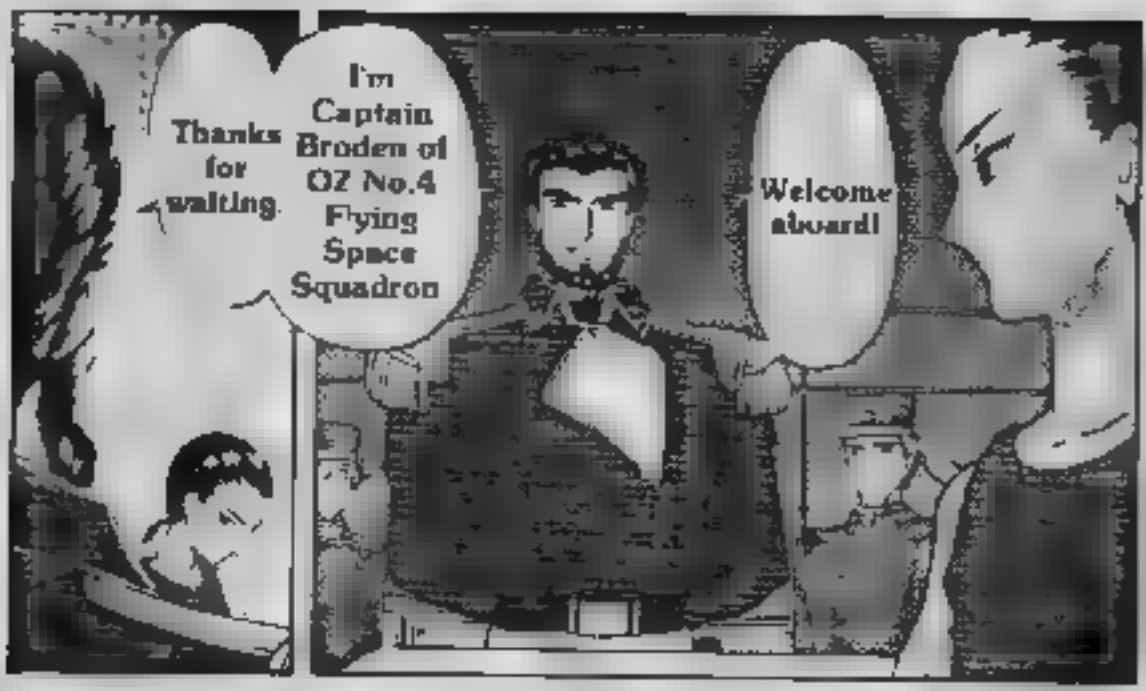
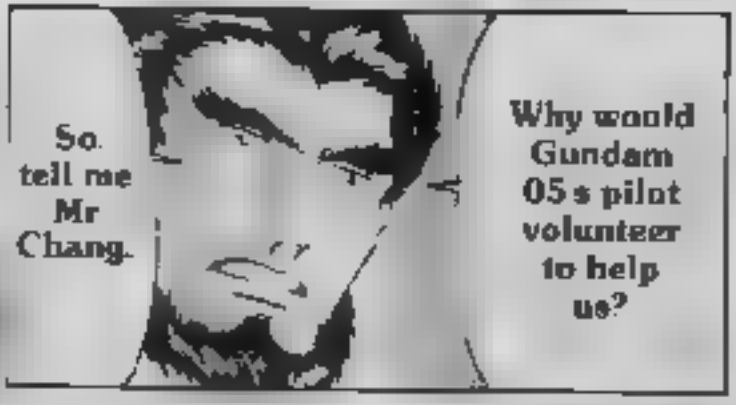
Dorothy?



Thanks for waiting.
I'm Captain Broden of OZ No.4 Flying Space Squadron
Welcome aboard!

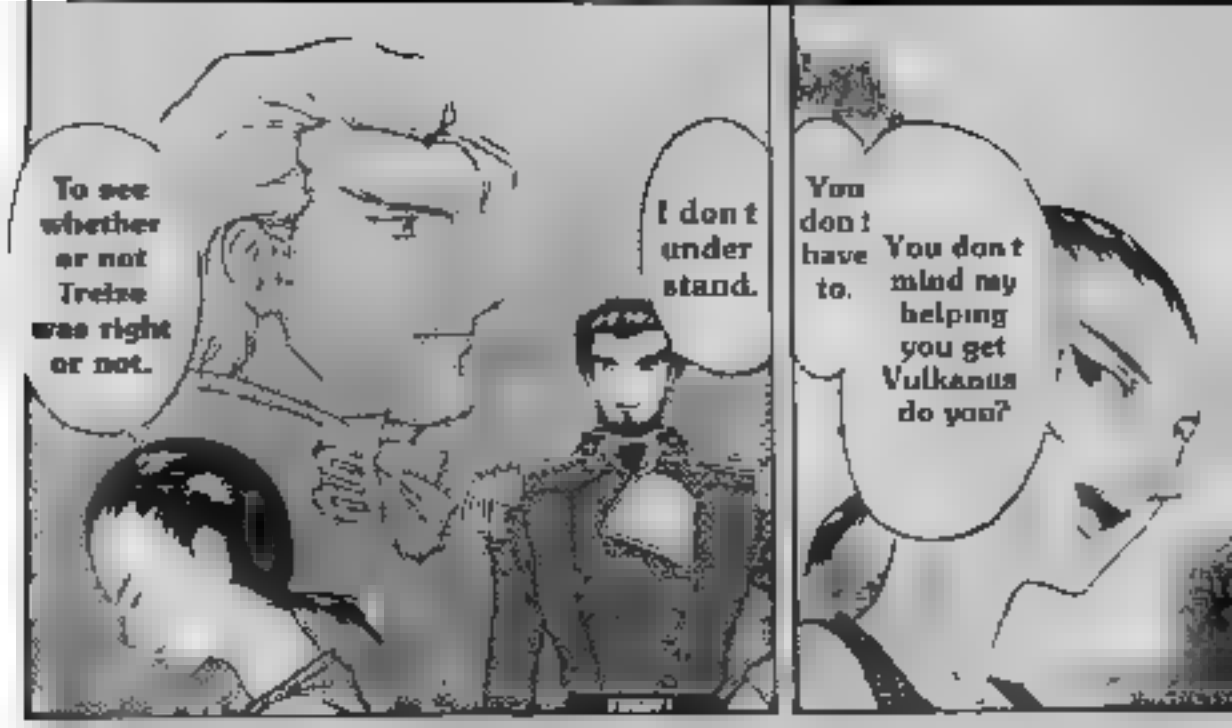
What's the point of sticking to old titles?
It still has some pull with old friends



So, tell me Mr Chang.
Why would Gundam 05's pilot volunteer to help us?

If Vulkanus exists, it will be perfect for the test

What?



To see whether or not Treize was right or not.
I don't under stand.
You don't have to.
You don't mind my helping you get Vulkanus do you?

What will you do once we have taken Vulkanus?
Nothing.
I'll watch the Earth's reaction.

I still don't understand, but your help will be .
Hmmmmm.

Captain!
There aren't many of us left, Lieutenant Kleinmutz.
We need all the help we can get.
Yes, sir.
So does it exist?
It does!
We were under the command to secure a resource satellite and take it to Vulkanus.
Hm...
We have the approximate coordinate, but that's not good enough.
Why not?

There s.

Captain

What should we do, sir?
Nothing. We have the upper hand.

Have him keep watching their moves.

Why can't everyone live in peace?!

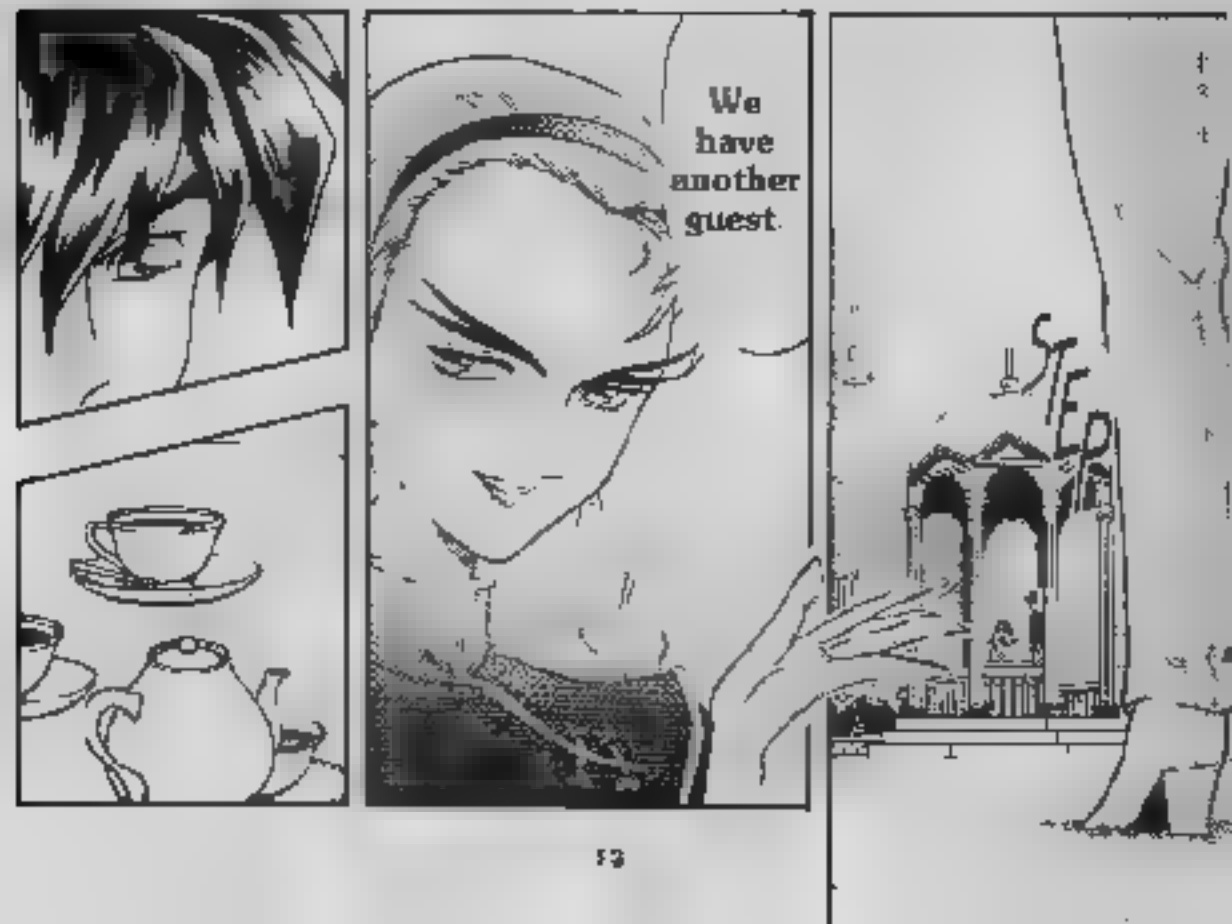
Sir, we lost three Virgos, and failed to capture a Gundam.
How unfortunate..
We do have a recording of the battle, sir.
This could be useful.
Let's use this recording to our advantage.
Heh-heh...

Take a seat, Heero.



We have another guest.

Relena.

Relena called me last night and I took the liberty of inviting her.

It's my little gift to you.

You look well

I am.

That's it? No passionate reunion?

I don't have time for this. I'm leaving.

Please. Just relax..

I need you to solve this riddle for me.

It's a note from Tubarov to my grandfather.
It's probably about Vulkanus.
What?!
Aspect 50-14-18 from Leo, 12-18-24 from Aries. Willhelm & Muller.
Middle 4 of Romefeller's glorious year & birth place.
I'll tell you the last one about "middle 4".
1956, Vienna. So, it's "56VI"

Is it a password?
I don't know
What is this about?
It's about peace on Earth.
Heero will tell you the rest. You both need to work it out.
Dorothy
I'm not involved in this.
You should hurry Captain Broden will have gotten the same data from Tubarov.
... ...
Let me use your database.
Heero!
Go, give him a hand.

Yes, sir Your approval rating is 48 percent. You'll be fine, sir
It'll go up by the election. Sure.
Good-bye!
Busy, Lady Une?
Remember the U E S.A's space base you destroyed as a member of OZ?
The one that resisted until the end?
Uh-huh What do you want with me ..
Chang Wufei?

Yes.
It's a bad memory.
We silenced it with unmanned test Tauruses.
I heard Tubarov built an MD plant there.
I don't know.
I couldn't have known.
What happened to the base?
After the bombardment it drifted out to Mars' orbit.
Did Tubarov have a password for MDs?
I've heard of a large MD, which was never made.
It's called "Scorpio," I think.

Thank you for your help.
Wa-fei, what's this about?

Don't worry about it.
Just keep up the fight for peace.

He can do it.

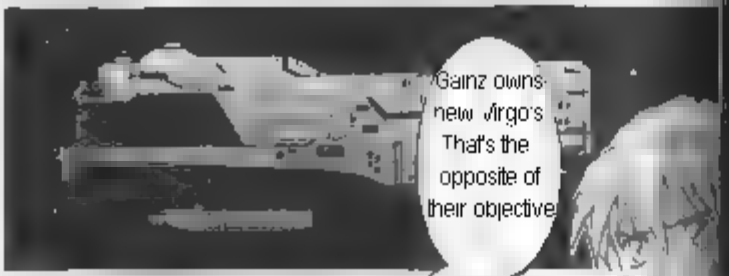
Are you okay Quatre?
Ah! Ah
The peace you're talking of only belongs to you.

A threath ?
I want to use it as a threath and place it near Mars or Jupiter
No
Things that can be weapons
Humans cannot stop producing weapons
To humans it is an necessery action
Why is that?
If people know there is a large troop of Mobile Dolls around Mercury
programmed to eliminate humans what will they do?
So you want the human race to start interplanetary exploration?
Are you using Vulkanus to start a war?
Humans still have to evolve and so they will coexist with war
Because war and human develloping ment are closely related The research on weapons makes human evolution
Yes Destroying Vulkanus is a very important mission
And also it will let the human evolution to accelerate

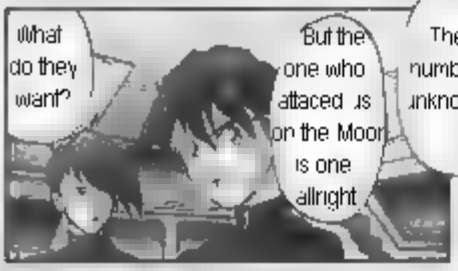
Colonel Broden you are really a weird man
You see a different future than Threize
His Excellence concerned about the unity of the Earth Sphere
For us we concern about leaving the Earth Sphere
Have you ever felt the wideness of the universe Chang Wufei ?
I have that feeling sometime
So you think mankind should go to farther places?
I believe mankind will go farther
For human beings we have reached the farrest
et for the universe that is just a tiny short distance

I'll come back when you need me
Yes thank you
Heero are you going to fight again?
Yes
I will not let Vulkan-us to be control-led by anyone
Relying on weapons is not true peace
To obtain true peace the Earth needs...
You are wrong Relena
I feel so weak always depend on you
a strong person with a warm heart like you
Hee-ro

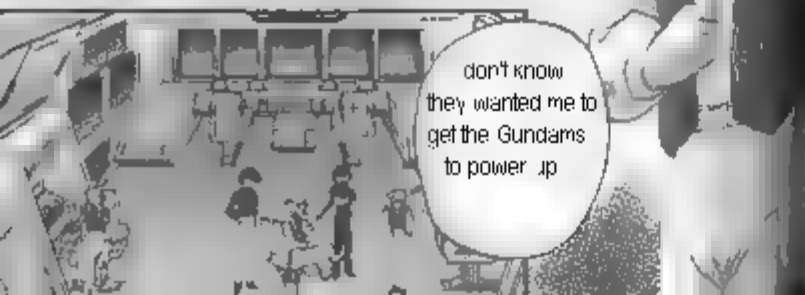
For the noble mission!!



Gainz owns new Virgo's That's the opposite of their objective



What do they want?
But the one who attaced us on the Moon is one allright
Their number is unknown



don't know they wanted me to get the Gundams to power up

When we get Vulkanus total peace will arrive on earth

For the noble mission

Coordinates set for Vulkanus Lift Off!
And WE are the ones who bring it

I'll come soon Please send Wing Zero to the assemble point
I will send you the encoded coordinate Break the code and hurry up to get there
sea- ch for us?
They say Gaintz's shuttle left the colony to search the Gundams
I've contacted the gov ern- ment!
Gaintz is heading for Vulkanus
Vulkanus 'es
over now
U.S.E.D
Vice foreign min- ister Darlian sends a mess- age from Heero
What ? Got it Send it to me

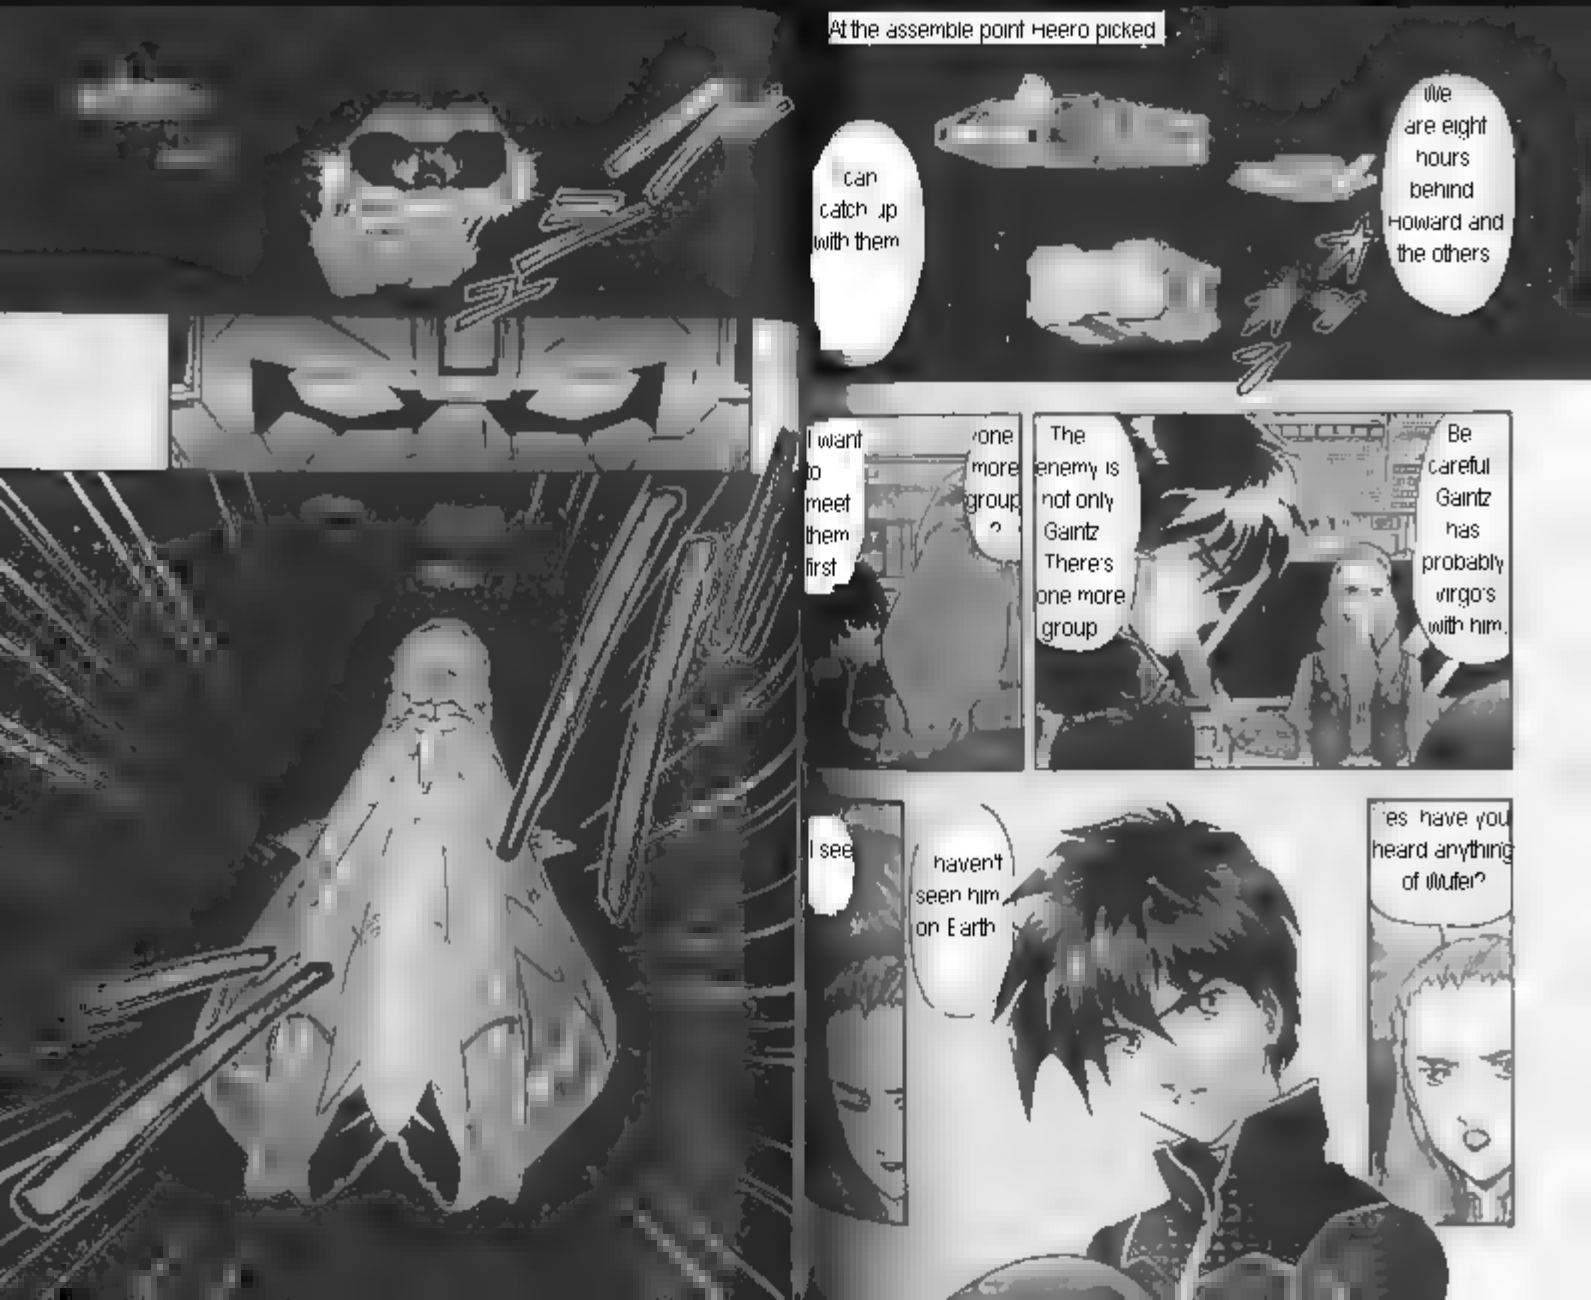
But strange their direction seems to be heading for the outer planets
All the pieces of the puzzle are here
It is the same direc tion Gaintz is heading
It is the focus- point between Earth and Mars
It is mo- ving
Vulka- nus exists
Looks like my busy body maked something interesting
Heero?

ドオオオオオ
Once it was the Alliance's fortress OZ Colonel Tubarov has build a unmanned Mobile Doll Virgo factory there
Tubarov died in a battle with the White Fang on the Lunar Base.
HO-wa rd ?
The only thing left is to search
But it is not e-nough to complete the whole puzzle yet
But what about Wing Zero?
Chang-ing our course is not a problem
Kitti Ok That's settled Now let's blast some's ass
Tell me where the asem-ble point is
let me deli-ver it

Vulkanus went out of Earth's orbit and it is now in orbit around Mars
ドォォォ
Since then Vulkanus existence is burried in the valley of history
The other who knew it's location Duke Dermail also died during battle
Vulkanus is still there but the recources have been used up and the factory stopped opperating
Since then Vulkanus was waiting and continued waiting for a person worth enough to command it
However inside it are 14 Mobile Dolls called Virgo's

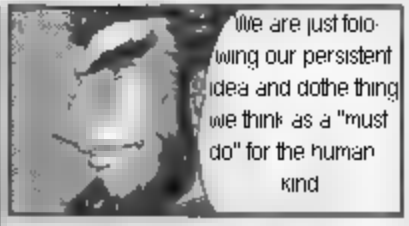


At the assemble point Heero picked
We are eight hours behind Howard and the others
I can catch up with them
I want to meet them first
one more group ?
The enemy is not only Gaintz There's one more group
Be careful Gaintz has probably virgo's with him.
I see
haven't seen him on Earth
es have you heard anything of Mufer?

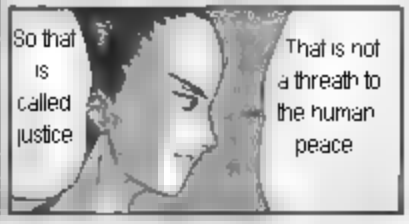
We have located Vulkanus the distance is 255 We're about to approach it
If the code "Scorpio" can't stop it we have to start the battle
Because of the guard ?
When we get to 20 000 unite the relative speed and deploy the reconnaissance
Justice ?
You are about to become the threathf of human kind to coorperate with this justice is meaningful
Even though it is different from my ideas will still help you

They are Virgo's
Then we have to defeat them
Please note The code is incorrect
They don't react to the code scor pio

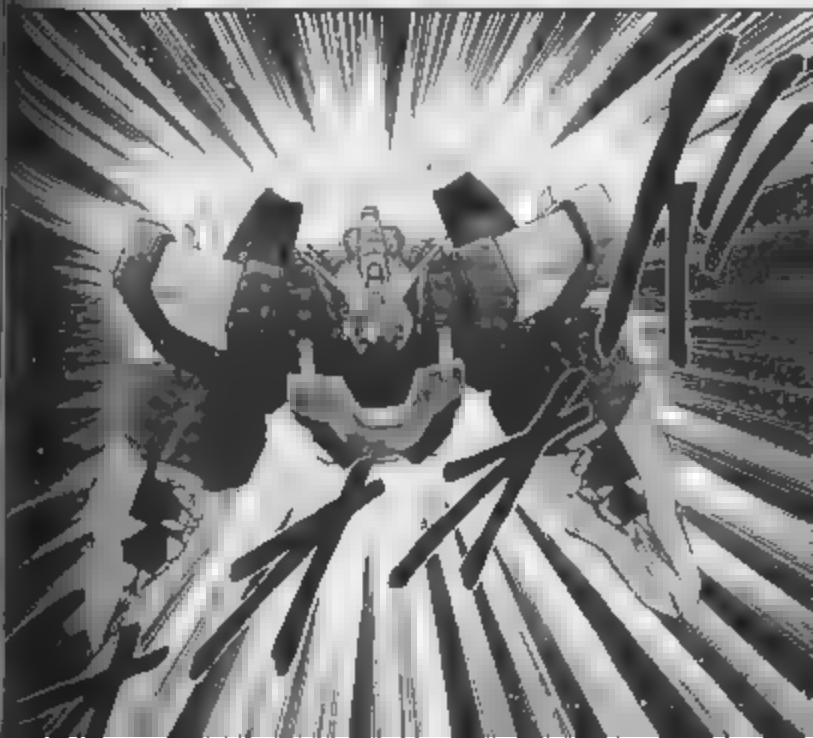
I'm nothing compa- red to you
You are a weird man Chang Wufei



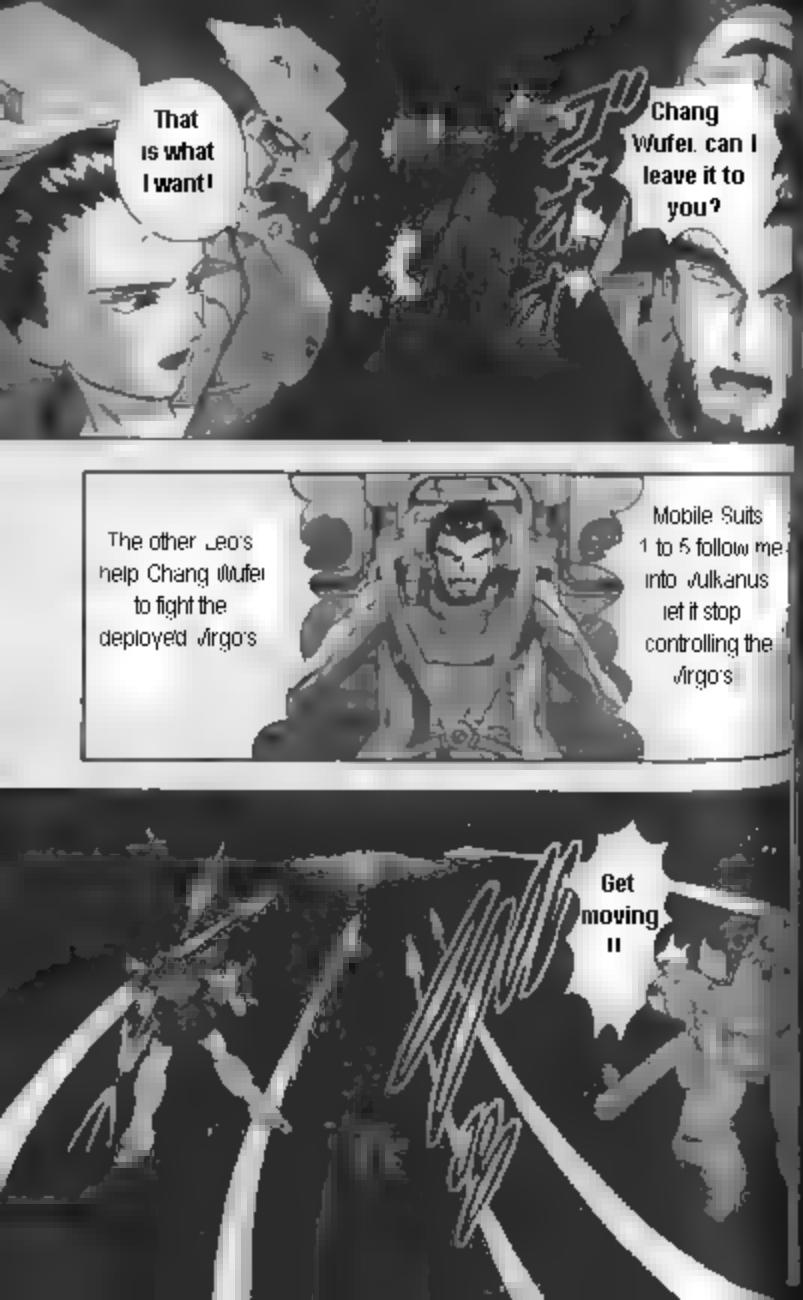
We are just folo- wing our persistent idea and dothe thing we think as a "must do" for the human kind



So that is called justice
That is not a threath to the human peace



What the heck is that?
Ha, you weakling !!
That is the guard!
Scorpio!!



That is what I want!
Chang Wufei, can I leave it to you?
The other Leo's help Chang Wufei to fight the deployed Virgo's
Mobile Suits 1 to 5 follow me into Vulkanus let it stop controlling the Virgo's
Get moving !!
Ah.

The Gundams are deployed from the shuttle on our right
There's a battle ahaid
That is the OZ vessel!
Is that Wufei? What the hell is he doing here?
Never mind about them our main mission is to control scorpio
Deploy the Virgo's
I'll go on the Taurus
Then we should go too

Shit!
It is the Perfect Peace People!
Who are they!?

They won't since they keep Virgo
Are they wishing for peace and come to destroy Vulkanus?

Scorpio is being stopped!

I'm going inside Vulkanus now with Lieutenant Klementz
What!?

Send out the code "56W"
Scorpio come to me
5 6 W !

What !?
From now on Scorpio and Vulkanus belong to us. The Perfect Peace People!!
The peace of the Earth Sphere will be protected by us!
Other than us. no one will be allowed to own weapons!
Attention to all Gundam pilots!
Surrender and hand over your Gundams at once !!

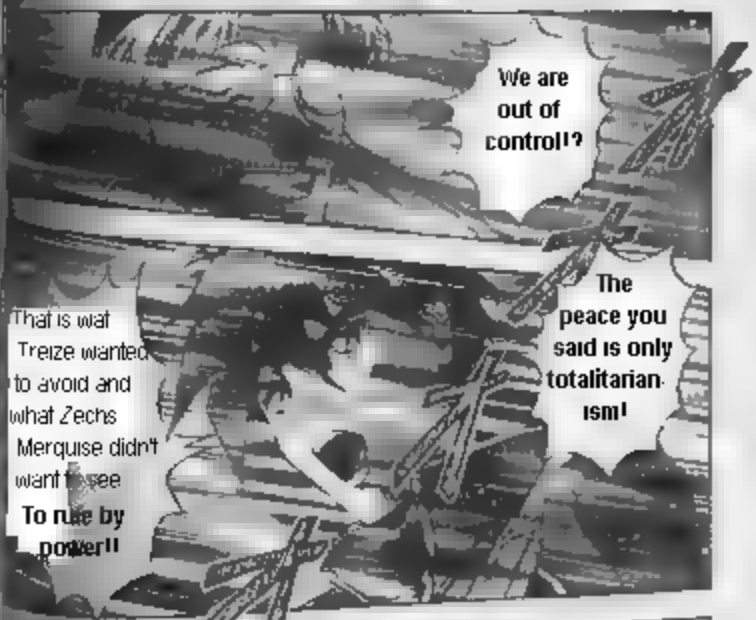
This is the result of the puzzle
What kind of total pacifism is that!?

What are the differences?
How are we different?
What are the differences? How are we different? You can also be out of control!
differ ent!!
differ ent!!
If we are out of control. Our companions can stop us!!
Heero!
Then let me tell you.
ask your self the same ques tion
Who will support it?
If you guys get out of control then who can stop you!?
We are differ ent from you!
Why do you guys still keep the Gundams? Why still continue to own weapons? Does anyone agree with what you guys have done?

Hmm
And if you are out of control
We will stop you.

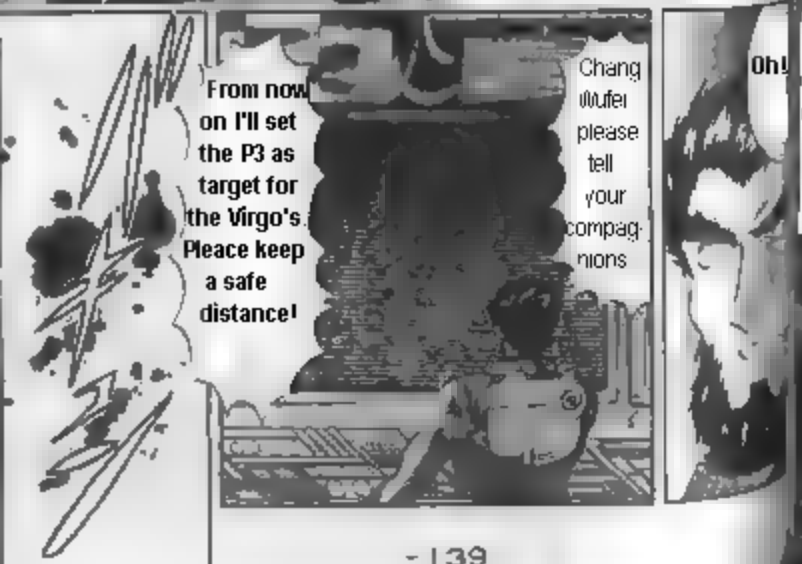
He was chosen to be the leader of the White Fang only because of his last name
Peacecraft!

This way! Hurry up Klementz !



We are out of control!?
The peace you said is only totalitarian ism!
That is wat Treize wanted to avoid and what Zechs Merquise didn't want to see
To rule by power!!

What can Zechs Merquise do!?



From now on I'll set the P3 as target for the Virgo's Pleace keep a safe distance!
Chang Wufei please tell your compag nions
Oh!

Where will mankind go to ?
Wufei
Bro den !!
Lieu- tenant Klem- entz? Why?
Ah!
Don't you understand Total Pacifism nothing but a dream?
So you are one of the P3
For our lofty mission
Bro- den what's wrong?
Vul- kanus is in our hands now
Mr Gaintz

We are the protector of total pacifism !!
Good job Klementz! With this we can build our ideal!
What Lofty !!
Don't obstruct our lofty mission!!
Leave it all to us!
Duo Quatre Get into Vulkanus and stop the Virgo's from being controlled
Aah!

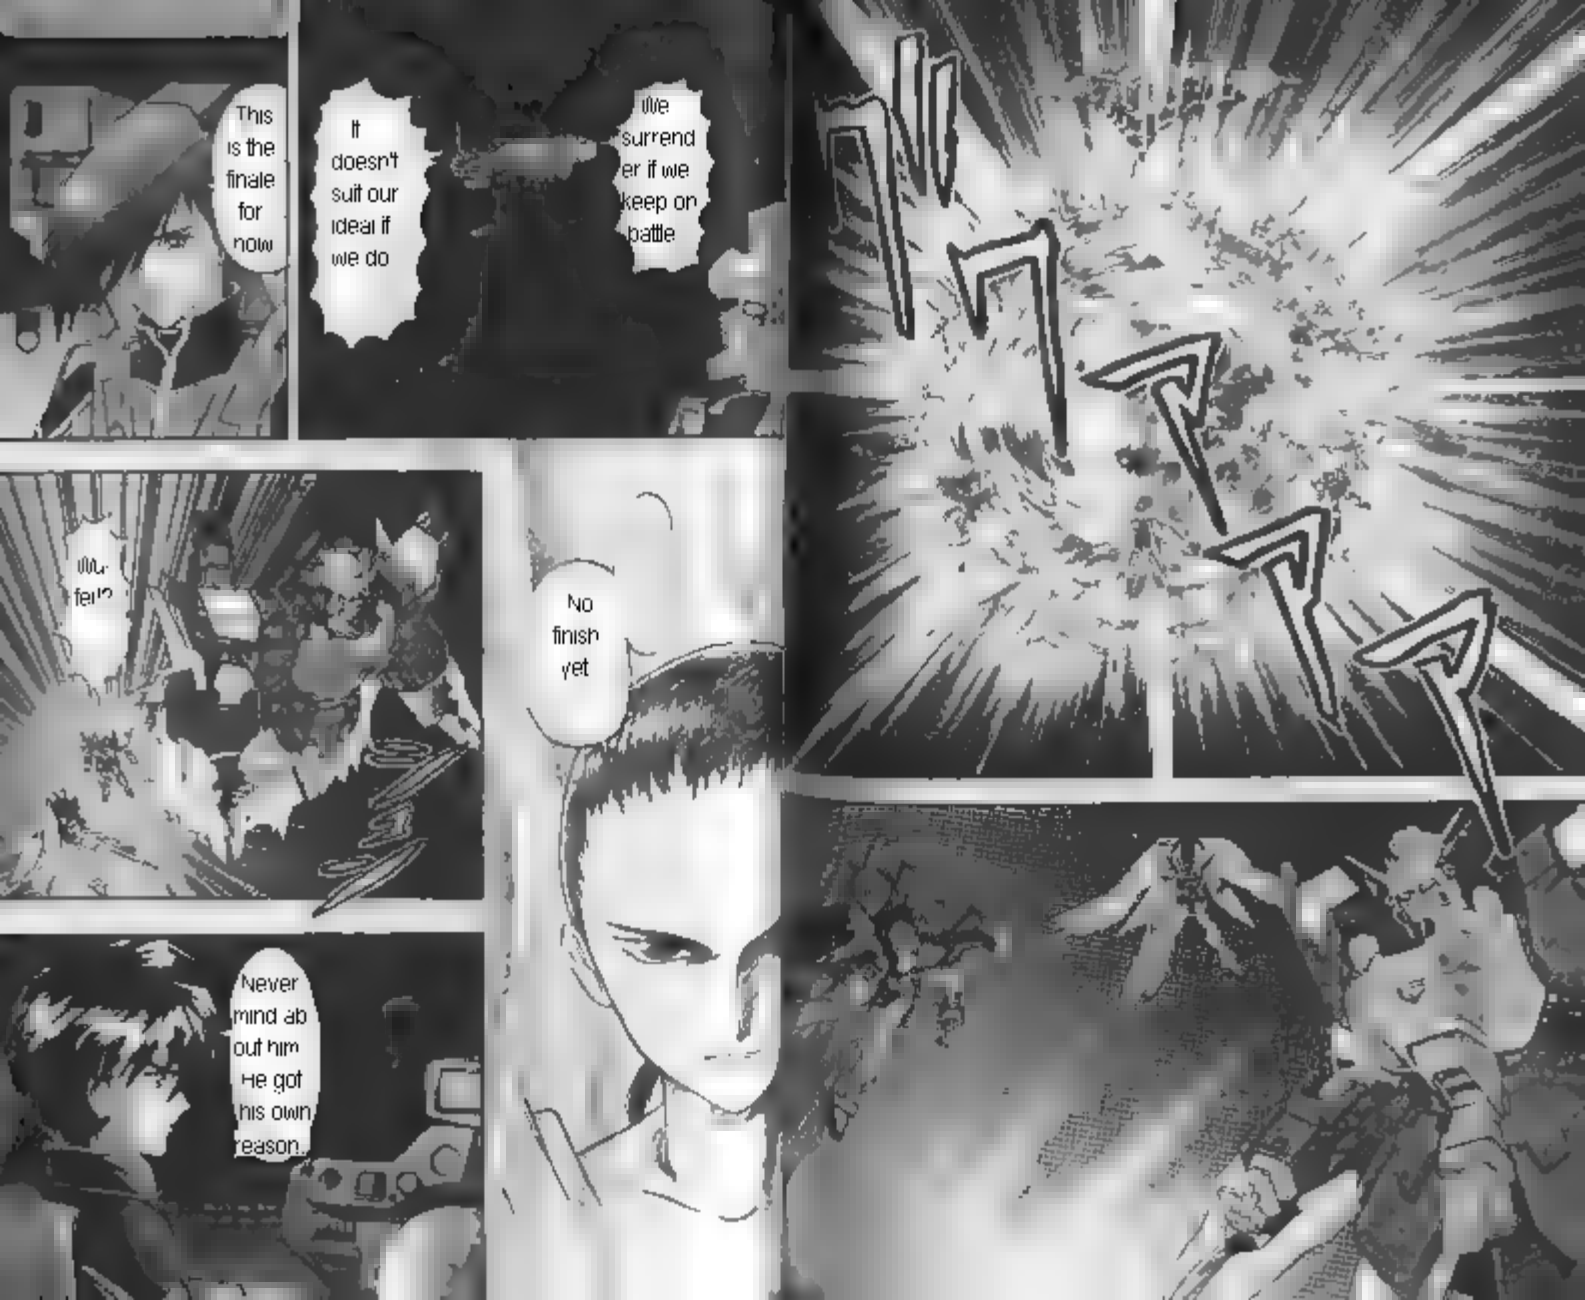
Quinze invited Zechs to become the leader Gaintz opposed and left the White Fang
Pikuta Gaintz the former cadre member of the White Fang
Yes !
Let's hurry!
Shut up!!
get it
Are the Gundams !!
The enemies are the Gundams
Shut up!!
You are the ones who don't want to give up their Gundams What are talking about
You wish to rule by power !!
What you wish for is not peace
!!

That's right
For the peace
Start now Virgo's
That's enaugh!!
The Virgo's will be deactiva-ted
Heero we stop P to con-trol the Virgo's
!!

If there is still some one like you, we'll never give up
You have no sence of justice!!
Kle-mentz haven't the Virgo's been started !?
Ah!!

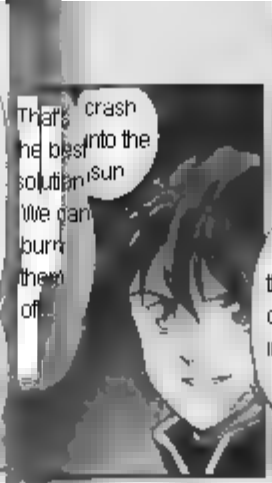
Argh!!
Surrender? who do you think you are!?
Surrender now Vulkanus is under our control
Klementz!?
You are the ones who portrait to be peace protectors and still owns weapons!!
If mankind wishes we can always give up this power

This is why we are different from you!!
Quinze! Why did you choose Zechs!?
Why didn't you choose me!?



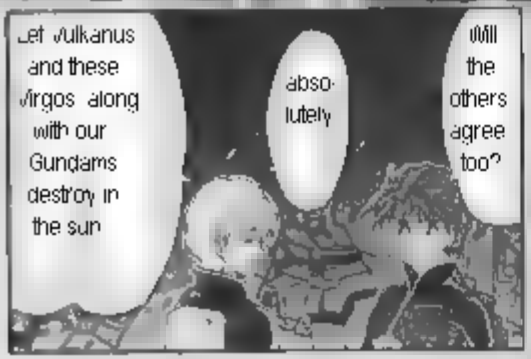
This is the finale for now
If doesn't suit our ideal if we do
We surrend er if we keep on battle
No finish yet
Never mind ab out him He got his own reason.

there is no need for the Gundams
We have confidence And because of this



That's the best solution We can't burn them off
crash into the sun

Change its orbit towards the sun
let them crash into the sun
Destroying these Virgo's will be one tough job



Let Vulkanus and these Virgos along with our Gundams destroy in the sun
absolutely
Will the others agree too?

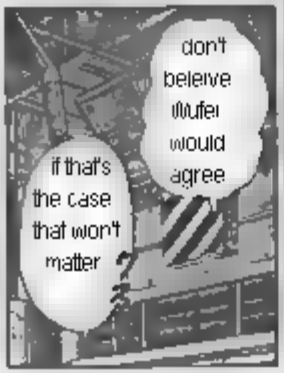
Please believe this, mankind is heading towards peace
There is no need for any weapons

They are different from us
Gaintz kept asking the difference between him and us

They don't trust the one with weapons
There is defect n the r pac fism wich is acking of cont dence
es

What!?
And our Gundams too

Then let us begin
Because he has no more opponent right?



if that's the case that won't matter
don't believe Wufei would agree

Our noble desert prince has an peaceful suggestion!
Hey Heero! Trowa! Wufei!
Don't worry Broden
Let me be the threat for mankind
In the summer of After Colony 196 the pilots decide to give up their Gundams because they beleive that the era of peace has come

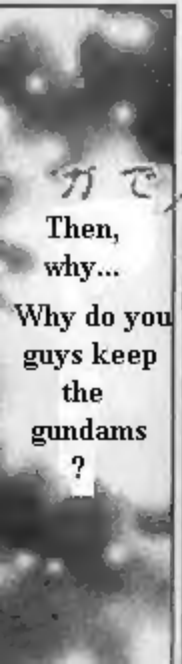
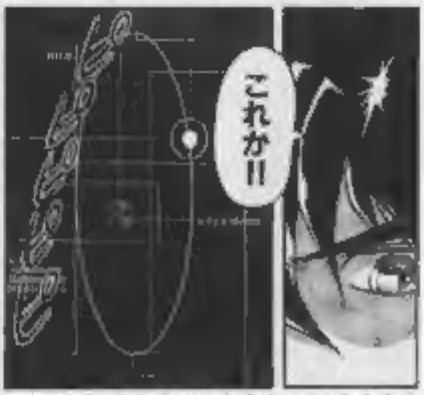
NOTE: In most cases, Gaintz stands for The Perfect Peace People, for short the P3. The names Gaintz and P3 are sometimes swapped.





What is this ?
I'll trans mit it
... What ?
Some- one has used it
Hey, isn't it our battle on the moon?
I don't beleive he would be that obvious ...
Gaintz ...
The Earth-Sphere is not yet free from the threath of weapons !!
Just as you see, my fellow citizens ...

It's not that!
I'm.. I'm..
Why do you still have the Gundams?
Howard, you I think you want to see this!
Quatre ...
Ah.. Ah..

We deeply want to eliminate the weapons called Gundams!!
I understand, Heero. There is someone you know well too.
Relena can you please contact he min-i ster of space
This guy is nuts
Soon, they will atack us, those who wish for total pacifism !!
They still keep the wea pons called the Gundams !! whit this disarm ament, They will be the only ones who have weapons
He's after our Gundams, Thats for sure!
Do people really beleive what he wants?
The Sunda ms are the mayor threat for peace
But in this case we feel a strong sense of insecurity !!
We are the perfect peace people who wish to eliminate all weapons!
They have left the moon already ..?
even it is not the way we want, for peaceful and lofty mission, we have to do, it !!
If the Gun-dam pilots hear this mess-age and don't start to destroy the Gundams There is need to use force !!
Is it really peace what this man wants?
